

HSF3_DAP_target

Representative GO terms

6	ammonium transmembrane transport
6	glutamine biosynthetic process
13	membrane lipid metabolic process
22	protein folding
15	purine-containing compound biosynthetic process
58	response to acid chemical
37	response to lipid
160	response to stress
51	response to temperature stimulus
12	ribonucleoside monophosphate biosynthetic process

$-\log_{10}(\text{q.value})$
